## Calling all Architects and Designers

Homeowners today want products that are low maintenance, easy to install and still look great. FrontLine has the solutions for Exterior Door Frames and Casing. They are built to be maintenance free with durable 16 gauge extruded aluminum frame components and pre-clad frames.

Look no further than FrontLine for the best in all aluminum door frames that offer these benefits:

- 11 standard colors with custom color capability.
- Exterior casing profiles with snap on accessories
- 2 common jamb depths with the ability to clad almost any jamb depth
- No wood, so there's no rot, no warping and no insect infestations
- Concealed Fastening System for a clean, crisp look
- Pre-finished
- Installs utilizing a nail fin
- Garage door frames in 90°, 45° and Arch Top designs
- Complements a variety of architectural designs
- Creates a consistent look for all fenestration openings

### Garage Door Frames

#### Pro Series

- Easy installation
- Available with 90° square or 45° clipped frames
- Available in 5-1/2" (2x4 walls) and 7-1/2" frames (2x6 walls)
- 16 gauge extruded aluminum for strength and durability
- Heavy duty steel corner gussets for perfectly mitered corners
- Optional 3-1/2" flat casing and J-mould (both field applied)
- Compliments the FrontLine entry door cladding systems
- Limited lifetime warranty

#### Builder's Series

- No Painting...EVER!
- No Exposed Fasteners
- Laminated Strand Lumber Core
- Treated Vertical Bottom Keeps Water from Absorbing into the LSL Core
- Limited One-Year Warranty
- Aluminum Thickness: .062, 16 gauge, 1/16"
- Corner Alignment Pin Ensures a Perfect Miter Every Time
- Available with 90° square or 45° clipped corners

#### Arch Top

- Heavy duty .062 (16 gauge) extruded aluminum
- Arch-top is all aluminum - no wood
- Side jambs are all aluminum - no wood
- Virtually indestructible
- Completely maintenance free
- Available in 5 1/2" and 7 1/2" jamb depth
- Crownline nosing only
- Stock sizes 9 ft., 10 ft., 16 ft., and 18 ft. widths
- 7 ft. and 8 ft. heights
- Easy installation

### Entry Door Frames

FrontLine manufactures aluminum cladding for entry doors that match their garage door frames. They are made to the same quality specs and will provide the same great performance - and need no painting EVER.

### Remodels

Low maintenance after-market clad can be applied to any door system in the home. This clad system can easily be installed with a few basic tools, by any homeowner, and can be applied to any entry door or garage door frame.
