Royal Celect

Engineered to elevate the entire exterior of a home with gorgeous, virtually seamless looks, Celect is durable, virtually maintenance free and compatible with any home design.

Celect is made from recyclable, state-of-the-art cellular materials, so it won't rot, split, crack, warp, twist, blister, flake, peel, delaminate or suffer loss of structural properties due to termites, microbiological growth or other decay.

QE TruCedar Steel Siding

The real look of cedar siding in a durable, easy to maintain steel construction. The color palette was chosen to simulate the look of real cedar wood shakes in various stages of aging. Several siding sizes are available as well as accessories.

QE Vesta Siding

Vesta is a steel planking system inspired by the sleek aesthetic and weather-tight performance of shiplap. This bold siding is born to turn heads. With eight interchangeable solid hues and four versatile and variegated woodgrains to choose from, styling options are limitless.

Great American Spaces™

Great American Spaces easily transforms walls, ceilings and more with tongue & groove and shiplap planking that recreates popular American interiors — from rustic to vintage, and coastal to modern — quickly, easily and without the hassle of reclaimed wood.

Four Collections are produced using solid pine that's engineered through a multi-step finishing process exclusively by Great American Spaces. Real wood provides real warmth, real texture and real character for a look that's ready for fast, easy installation.

ColorFusion Cedar Shingles

Prestained Cedar Shingles provide long-lasting beauty at half the cost of on-site staining. Available in a wide array of colors, Red Cedar Shingles, White Cedar Shingles and Red Cedar Panels provide a customized look with traditional charm. Installation is fast and easy.
