

LAMINATE

HPL Stones Collection - 2021 Launch

SEPTEMBER 2021

The First Light of a new day brings with it a sense of calm. The collective movement in our homes and communities continues toward feelings of nurturing and comfort. Many of us have intuitively connected with nature. We may have added more houseplants or spruced up our outdoor spaces. There's also a desire to live life more casually. We long to have friends over for a get-together, not an elaborately hosted dinner party. We desire headspace to think and contemplate, giving us a break from all the hectic responses of a typical day of work and family obligations. Life is complex and stressful. At Wilsonart, we understand that interiors have the power to support our wellbeing goals and inspire us to live each day with a sense of calm.

Our new premium Fieldstone (-15) texture is reminiscent of a naturally honed stone surface. This new texture gives a pleasantly tactile but soft to the touch surface. With its more matte sheen, it is less reflective, supporting our more casual way of living. The Fieldstone texture is perfectly paired with aspirational stone looks, adding a sense of calmness due to its connection to nature. To add to the authentic surface characteristics, there are veining details in a slightly higher sheen. This finish is a true “no-fuss” surface. HPL can withstand the rigors of most interior environments. HPL is an excellent low-maintenance solution compared to other surfaces that require sealing or refinishing. Wilsonart® HPL is available with Antimicrobial Protection that inhibits the growth of bacteria, mold, and mildew that cause stains and odors. Premium and Standard Laminate designs have Antimicrobial Protection available as a factory order option.

The color trends tell us that grounding colors from nature are highly sought after. We may have elements that are still bright white, but browns, taupes, brick, and turmeric offer warmth and comfort to the space. Natural, neutral tones of warm white and light beige aid in creating a relaxing, cozy space. The color combinations of grey and brown together offer a warm/cool aesthetic that maximizes versatility. Touches of black can create a classic focal point in a kitchen and instill a quiet, meditative aura to the space.

To support your home's goals, we have searched for unique stone looks that will be beautiful for years to come. We have done the hard work so that you do not have to. It's simplicity at its best. Select any of these new designs for a gorgeous, personal, and hard-working space that will span the test of time. The complex neutrals allow for the most flexibility and coordination when adding finishing touches.

#15 FIELDSTONE - PREMIUM

AEON™ Enhanced Scratch & Scuff-Resistance Performance Technology

New! Fieldstone (-15) is a honed surface with “soul”, less reflective, more casual. This matte, stone finish has a mixture of low sheen, stone-like textural attributes layered across the surface. And layered on top are fine, irregular veins and features in a higher sheen which create natural contrast and dimensional organic detail.

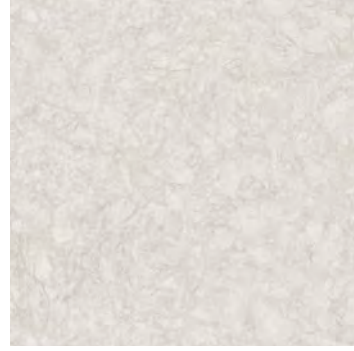

GLACIER QUARTZITE
5025K-22

Glacier Quartzite is a Fantasy Brown Quartzite linear stone pattern with striations of white, taupe, and soft blue-grey features.

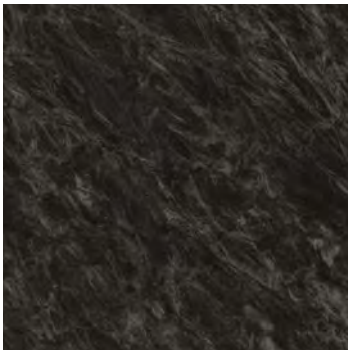

BRAZILIAN GREY
5026K-07

Brazilian Grey is a Brazilian Arabescato stone design with multiple shades from white to a mid-tone grey. The structure has lively flowing movement throughout.

ARENITE CREAM
5027K-07

Arenite Cream is a large-scale, chunky veined stone in a modern cream.

SOMBRA
5028K-07

Sombra is a Brazilian Arabescato dimensional marble with large-scale movement in deep blacks and shadows of grey.

OURO BRANCO
5029K-22

Ouro Branco is a Fantasy Brown Quartzite linear stone pattern with striations of white, taupe, and soft blue-grey features.

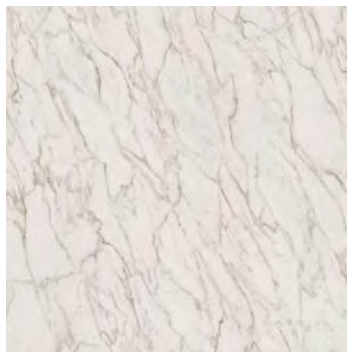

QUARTZ FROST
5031K-07

Quartz Frost is a white particulate quartz look with thin, spidery veining and minute detail.

BRAZILIAN BLUE
5032K-07

Brazilian Blue is a Brazilian Arabescato stone design within a range of mid-tone blue-grey colors. The structure has lively flowing movement throughout.

ANZIO MARBLE
5037K-38

Anzio Marble is a medium-scale, directional design with the subdued warm grey to taupe veining.

ORTENSIA
5038K-15

Ortensia is a Fantasy Brown Quartzite linear stone pattern with striations of white, taupe, and soft blue-grey features.

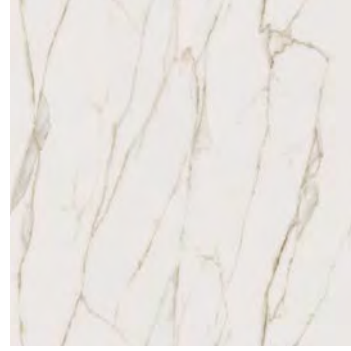

BELLA ROMANO
5039K-15

Bello Romano is a large-scale directional granite structure with warm white, taupe, and copper-colored particulates.

GRANITO CASCATA
5041K-15

Granito Cascata is dynamically veined directional warm white granite with accents of warm browns and cool blue-greys.

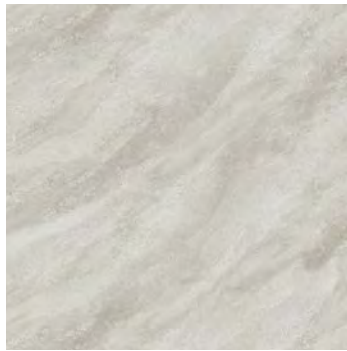

CALACATTA LINCOLN
5042K-07

Calacatta Lincoln is an extra-large scale white marble with refined warm brown and smoky charcoal directional veining.

LISOLA
5043K-15

Sombra is a Brazilian Arabescato dimensional marble with large-scale movement in deep blacks and shadows of grey.

BEACHWALK
5044K-60

Beachwalk is a tonal warm white directional granite with texture interest and sweeping movement.

ICE MIST
5045K-15

Ice Mist is a directional cool white marble with unique veining features interweaving the surface in bright white, navy, and brown colors.

LAKESHORE
5046K-15

Lakeshore is a richly detailed warm grey stone with large-scale dynamic veining features.
