Great American Spaces™ brings natural beauty, warmth and texture to your walls, ceilings and more.

Distinctive collections let you create spaces that run from rustic to coastal, transitional to eclectic, farmhouse to cabin. New or renovated. Residential or commercial. Entire rooms, accent walls, islands, bars and more—the possibilities are endless.

Bundled planks are crafted from hand-selected, 1-inch-thick, solid pine (Smooth MDF is made with medium density fiberboard). They're expertly milled and finished in a proprietary process that combines the character of vintage planking with the convenience of modern engineering.

Installation is a snap. Boards are prefinished and ready to install—eliminating the time, money and mess of finishing on site. Tongue & groove, shiplap joints and squared-off edges make fast and easy work for professional or DIY installers alike.

See how these collections can transform your interior spaces with the warmth and beauty of wood.
