## COMPOSITE SURFACE STORM DOORS

Composite surface storm doors seal out the elements for low-maintenance, weather-resistant protection that lasts. A solid wood core provides durable insulation while the weatherstrip and adjustable bottom expander mesh against the door frame for a tight seal, even in entries with uneven sills.

## Easy Measuring

One great feature of Larson® storm doors is that they can be easily installed by homeowners, saving on the cost of professional installation. Use the diagram below to record your measurements as shown. If the width measurements vary, use the smallest measurement.

Remember, Larson offers custom sizes to fit a wide range of openings.

### RECORD MEASUREMENTS

<b>A</b>	Width
<b>B</b>	Width
<b>C</b>	Width
<b>D</b>	Height

Door Opening	Min. Width	Max. Width	Min. Height	Max. Height
32" x 81"	31-7/8"	32-3/8"	80"	81"
36" x 81"	35-7/8"	36-3/8"		

Note: Size availability varies by model.
