NICKEL GAP® SIDING

LP® SmartSide® Nickel Gap® Siding offers a modern profile using SmartGuard technology. Nickel Gap features locking flanges with a fastener groove that hides nails. This also allows for the siding to be stacked and tapped into place creating a gap between the boards about the size of a nickel.

- Features include a nominal 1/2" thickness and 7" reveal
- Can be installed vertically or horizontally
 - Local/regional building codes should be followed
- LP SmartFlash metal pan flashing accessory (or equivalent) must be used at joints in siding
- Backed by an industry-leading 5/50-year limited warranty

Pan flashing for siding joints
