Wood Types

No matter which wood type you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat, or other contributing external conditions. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes, and wormholes. These markings make the wood unique and contribute to its enduring beauty.

Cherry

- ▶ Top-of-the-line hardwood with a rich, natural reddish-brown tone
- ▶ Uniform tight grain allows finishes to be applied with ease
- ▶ Characteristics include mineral streaks, pin knots, and curly graining
- ▶ Darkens with age and exposure to light
- ▶ Smooth wood grain pattern with random markings

Maple

- ▶ Strong, resilient wood with a uniform tight grain and smooth, even appearance
- ▶ Mineral streaks are common and will appear darker with stain
- ▶ Subtle wood grain markings include fine lines and wavy or curly graining
- ▶ Small, black "bird's eye" dots

Oak

- ▶ Very strong wood with distinct grain patterns
- ▶ Grain variations create a color gradation when stain is applied
- ▶ Grain patterns include fine lines, pin stripes, leafy grains, and watery figures

Birch

- ▶ Even-textured, fine-grained wood with a curly or wavy pattern
- ▶ Strong with a high resistance to abrasion
- ▶ Smooth, dense surface texture
- ▶ Tight wood grain appearance

Rustic Characteristics

Solid-wood Doors and Drawer Fronts, may have varying amounts of the following:

- ▶ Sound Closed Knot (stable / not moveable) – Acceptable up to 3" in diameter
- ▶ Sound Knot with Cracks – Acceptable up to 2" in diameter, with open portion not to exceed 3/4" in diameter or length. May be completely visible through to back side of door.
- ▶ Open Knot – Acceptable up to 3/4" in diameter or length of open portion of knot. May be completely visible through to back side of door. (*Note: Holes created by open knots are acceptable and desirable for this rustic look.*)
- ▶ Unsound Knot (loose / moveable) – Unacceptable
- ▶ Knot Cluster (cluster of tight, sound knots) – Acceptable in all sizes and quantities
- ▶ Season Checks (crack) – Acceptable, as long as light does not pass through opening
- ▶ Worm / Pin Holes – Acceptable if present on less than 50% of door and less than 1/4" in diameter. May be completely visible through to back side of door.
- ▶ Worm Tracks – Acceptable if present on less than 50% of door and less than 1/8" in diameter and 8" in length
- ▶ Mineral Stains / Streaks / Deposits – Acceptable if present on less than 50% of door. May be black or brown in color.
- ▶ Natural Wood Figuring – Acceptable to have bird's eye, curly graining, burl graining or tiger striping if present on less than 50% of door

Veneer Panels / Mouldings / Other Trim Items:

- ▶ Will have few to no sound closed knots, sound knots with cracks, open knots, or knot clusters
- ▶ May have some visible worm / pin holes, mineral stains / streaks / deposits, or natural wood figuring

Characteristics of Paint

Paint will develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish and will not be considered a reason for product replacement.

Select components on painted door styles and accessories may be constructed of hardwood or Medium Density Fiberboard (MDF) to provide a smoother finish and be more resistant to warping, expansion, and contraction.

Characteristics of Laminates

Thermofoil

- ▶ Doors & drawer fronts are shaped MDF core covered with a seamless vinyl laminate on face & edges, and a melamine laminate on back
- ▶ Vinyl laminate is applied to MDF with an adhesive using heat & pressure
- ▶ Creates a product with excellent wear and heat resistance properties

PureStyle™

- ▶ Durable, laminate-based material that provides superior abrasion resistance
- ▶ Meets/exceeds all KCMA performance standards
- ▶ Wrapped door rails and panels
- ▶ Clear, pre-impregnated top coat for superior durability (glazed styles have an oven-cured top coat)
- ▶ Lineals and core panel material are made of MDF to ensure a consistent and stable product
- ▶ PureStyle™ doors can be distinguished from painted cabinets by their picture-perfect distribution of satin, smooth color

These doors offer the durability of a laminate and the beauty of paint, while bringing peace of mind to those who care about creating a better environment - both inside and outside of their homes. Molded decorative door profile with a durable, yet attractive finish offers care-free maintenance. In addition to a uniform appearance, cabinets will have:

- ▶ A sleek surface
- ▶ A design that replicates a painted finish with optimum durability
- ▶ A fresh, contemporary feel that is also at home in a more traditional setting

Humidification

Cabinet components are typically manufactured at a target range of 40%–50% relative humidity. This works well because even unhumidified homes stay between 20% and 70% in normal years with typical cooking and washing activities.

In extremely cold, dry winters some doors can be exposed to conditions where relative humidity is below 20% for weeks at a time, causing shrinkage to occur. Conversely, where in-home relative humidity exceeds 70% for extended periods of time, expansion could occur. In certain geographic locations of the country, it is natural for the humidity to reach and remain at 80% for several weeks during the new construction period. Exposure to sustained conditions such as these could cause opening of the joints, and will not be considered as a reason for product replacement.

Aristokraft recommends product be stored and installed in an atmosphere where the humidity level and temperature are controlled.

Humidification Effects on a Door with a Miter Joint

High Humidity

When wood swells,
miter joints open as shown above.

Low Humidity

When wood shrinks,
miter joints open as shown above.

Steps Consumers Can Take To Protect Real Wood Furnishings

- **Keep an eye on the humidity inside the home.** Reasonably accurate digital thermometers-hygrometer units are available to measure humidity.
- **Maintain the humidity at or above 20% when the temperature is below 20 degrees and over 35% when the temperature is above 20 degrees.** Some ways this may be accomplished are installing a whole-house humidifier on the furnace, running a portable humidifier in key rooms, or placing pans of water near the heat registers.
- **Don't over do it.** Significant condensation on windows is a sign the humidity levels are too high for outside temperature conditions.
- **Recognize that finished wood responds to humidity over a period of several days to several weeks.** It takes time before the wood returns to normal after any correction to the environment.

Finish Descriptions

	FINISH NAME	DESCRIPTION
Stain/Glaze*	Autumn	Mid-tone stain with warm, copper tones
	Burlap New	Medium brown stain with a touch of gray
	Café	Dark brown stain with red undertones
	Flagstone	Dark, gray stain with brown undertones
	Java Glaze	Red toned base stain, highlighted by a dark brown glaze
	Natural	Natural finish is achieved with a clear coat which allows the pure beauty of natural wood grain to show.
	Pumpernickel Glaze	Warm medium brown stain highlighted by a dark brown glaze
	Rouge	Traditional, cinnamon red tones
	Saddle	Medium, warm brown stain
	Sarsaparilla	Rich, deep brown stain
Paint**/PureStyle™	Umber	Medium to dark brown stain
	Wheat	Light stain with golden undertones
	Antique Paint	Warm, off-white color
	Glacier Gray	Cool, light gray color
	Stone Gray	Cool, medium gray color
	Toasted Antique	Warm, off-white finish enhanced by the appearance of a medium brown glaze
	White	A pure white color

*Aristokraft's Hand-Contoured Glazing is an additional step in the finishing process that highlights door detail and enhances the richness of wood color and tone. Because glazing is achieved by hand, variations will occur throughout any door, and from one door to the next. The outcome will range from a consistent, even appearance to more varied coverage. The variation is a desirable feature and brings out the uniqueness of glazing.

**On wood products, normal movement is typical due to change in climatic conditions. This will cause hairline cracks at stile, rail and panel joints. This hairline cracking is a normal characteristic of painted finishes and will not be considered a reason for product replacement.

Finishing Process

Aristokraft offers a variety of cabinet construction and finish options in order to allow for maximum design flexibility. Below are details about wood characteristics to assist you in deciding on a wood type and finish.

The Aristokraft finishing process starts with top quality lumber that is sanded down to reach difficult areas before the doors are assembled. After assembly, each door is inspected before a toner is applied with a spray. After applying toner to each door, drawer front, and face frame, a layer of stain is added using a spray finish which is then hand-rubbed into the wood for maximum penetration and long-lasting beauty. A catalyzed varnish is then applied during the finishing process to fill the grain. Finally, a UV topcoat is applied onto the door, providing a protective layer and beautiful, lasting finish. A final inspection is given at the end of the process to ensure each door is ready for cabinet assembly.

The finish you select for your door style is just as important as the wood type. Each piece of wood will react differently to the finish material used, resulting in a slight variation in shade within and between cabinets. When natural, light, or tinted finishes are applied, the natural grain characteristics are apparent. For easy care and lasting beauty, Aristokraft covers interior surfaces of cabinet walls, backs, and shelves with Aristex™ surface, a urethane-coated laminate.

How to Use Door Style Numbers

Each door style described in this catalog is available in three construction methods - Standard, Select, and APC. Depending on what finish color is being specified, each one will have its own unique style number.

- Examples:**
- Benton Sarsaparilla Standard = 244
 - Benton Sarsaparilla Standard 5-piece = 5CH
 - Benton Sarsaparilla Select = 844
 - Benton Sarsaparilla Select 5-piece = 9CH
 - Benton Sarsaparilla APC = 644
 - Benton Sarsaparilla APC 5-piece = 7CH

Common Style Numbers for Finishes

In addition to the style numbers for door styles, there are several common items such as mouldings, panels, valances, fillers, organizers, wood hood units, open shelf units, and other parts that have been changed to a common style number based on finish. Look for the symbol (shown left) used throughout this book indicating Common Items. Please reference these common style numbers in the chart below.

Toasted Antique Glaze**	199
White	184

* Use Maple for Birch common items.

** Toasted Antique Glaze common style items will feature a glaze appearance and are only available on selected trim items.

All other trim items should be ordered as Antique (#198).

Note:

-Antique, Glacier Gray, Stone Gray, and White common style items will be painted hardwood.

-Use common styles for Maple finishes when Rustic Birch is not available.

	Miscellaneous Style	010	Miscellaneous items such as Sink Tilt-out Trays, and Cutlery Trays should use Common Style #010.

How to Order Upgrade Features

The pricing shown in the book reflects list pricing for standard construction. To order upgrades, simply add the applicable charges to the standard list price. Drawer and Construction upgrades are available and priced as follows:

Upgrades to Cabinets with Drawers

Select Upcharge (per Drawer)	
Drawer Quantity	Select Upgrade
1	\$124
2	\$248
3	\$372
4	\$496
6	\$744
8	\$992

5-pc Drawer Front Upgrade (per Drawer)

Base or Vanity	\$70
----------------	------

Upgrades on Construction

APC Upcharge (per Cabinet)	
Wall	\$ 69
Base, Bookcase, Universal, Vanity	\$129
Tall	\$256

Select and APC Upgrades for Cabinets with Drawers

- Most cabinets **with drawers** can be upgraded to Select and All-plywood Construction.
- Cabinets upgraded to Select feature a standard Dovetail Drawer Box with Concealed Full Extension Smart Stop™ Drawer Guides.
- Cabinets upgraded to All-plywood Construction (APC) feature the Select Dovetail Drawer Box and Concealed Full Extension Smart Stop™ Drawer Guides along with APC Box Construction.
- See Examples:

Example

Base Cabinet Upgrade to Select			
Customer wants to upgrade a B36B in Benton Birch to Select			
SKU	Standard	Select Upcharge	Total for B36B with Select
B36B	\$535	\$124	\$659 (\$535 + \$124)

Example

Base Cabinet Upgrade to Select			
Customer wants to upgrade a DB36 in Benton Birch to Select			
SKU	Standard	Select Upcharge	Total for B36B with Select
DB36	\$828	\$372	\$1200 (\$828 + \$372)

Example

Base Cabinet Upgrade to APC (Drawers must be upgraded to Select when specifying APC)					
Customer wants to upgrade a B36B in Benton Birch to APC					
SKU	Standard	Select Upcharge	Total for B36B in Select*	APC Upcharge	Total for B36B in APC
B36B	\$535	\$124	\$659	\$129	\$788 (\$659 + \$129)

*For cabinets with Drawers, Apply Select upcharges and then add the APC upcharge for the applicable cabinet type.

Example

Base Cabinet Upgrade to APC (Drawers must be upgraded to Select when specifying APC)					
Customer wants to upgrade a DB36 in Benton Birch to APC					
SKU	Standard	Select Upcharge	Total for B36B in Select*	APC Upcharge	Total for B36B in APC
DB36	\$828	\$372	\$1200	\$129	\$1329 (\$1200 + \$129)

*For cabinets with Drawers, Apply Select upcharges and then add the APC upcharge for the applicable cabinet type.

5-piece Drawer Front Upgrades for Cabinets with Drawers

- Available on most cabinets with drawers on PLUS Styles (except Teagan and Brellin).
- Can be applied to Standard, Select, and APC. (Select and APC will have additional upcharges)
- \$70 per Drawer to upgrade to an optional 5-pc Drawer Front
- See Examples:

Example

5-pc Drawer Front Upgrade			
Customer wants to upgrade a B39RT-2B in Benton Birch to include a 5-pc Drawer Front option			
SKU	Standard	5-pc Upcharge	Total B39RT-2 with 5-pc
B39RT-2	\$892	2 x \$70 = \$140	\$892 + \$140 = \$1032

Example

5-pc Drawer Front Upgrade and Select Upgrade				
Customer wants to upgrade a B45 in Benton Birch to include a 5-pc Drawer Front option and Select Drawers				
SKU	Standard	5-pc Upcharge	Select Upcharge	Total B45 with 5-pc and Select
B45	\$603	2 x \$70 = \$140	\$248	\$991 (\$603 + \$140 + \$248)

All-plywood Construction Upgrades (APC)

- Most walls, bases, tall, vanities, and universal cabinets can be upgraded to APC (All-plywood Construction).
- Add the following upcharge per cabinet to upgrade to APC.
- See Examples:

Example

Wall Cabinet Upgrade To APC			
Customer wants to upgrade a W3030B in Benton Birch to APC			
SKU	Standard	APC Upcharge	Total for W3030B in APC
W3030B	\$402	\$69	\$471 (\$402 + \$69)

Example

Base Cabinet Upgrade to APC (Drawers must be upgraded to Select when specifying APC)				
Customer wants to upgrade a B36B in Benton Birch to APC				
SKU	Standard	Select Upcharge	APC Upcharge	Total for B36B in APC
B36B	\$535	\$124	\$129	\$788 (\$535 + \$124 + \$129)

*For cabinets with Drawers, Apply Select upcharges and then add the APC upcharge for the applicable cabinet type.

Cabinet Front-Only (FO) Information and How to Order

- Cabinet front-onlys include the following parts (where applicable): frame, hinged door(s), drawer front(s), and non-matching toeboard.
- Parts not included: cabinets floor and cabinet accessories (door racks, wastebaskets, pull-outs, etc).
- Front-onlys are available in Standard door style numbers and are not trimmable.
- Front-only list price is 70% of the cabinet list price. Not available to order through 20/20, contact customer service to order.
- See Example:

Example

Front Only W3030 in Benton Birch		
SKU	Standard	Total Front Only W3030B
W3030B	\$402	(\$402 x .70 = \$281)

Cabinet Frame Only (FM) Information

- Not trimmable.
- Not available to ship FedEx.
- Contact Customer Service to set up SKU frame only.
- Orderable via EDI after set up.

Cabinet Frame Only Pricing	List Price
Wall	\$175
Base	\$225
Tall	\$450

FO and FM are not available on the following cabinet types (contact customer service for additional questions):

- Sink Base Cabinets or Sink Fronts
- Base-height Vanities that share a frame configuration with a standard Base Cabinet
- Base Roll Tray Cabinets 15"-24" wide or 39"-48" wide
- 12" deep Base Cabinets (Use SKU for 24" deep)
- 15" or 24" deep Wall Cabinets (Use SKU for 12" deep)
- 18" deep Vanity Cabinets (Use SKU for 21" deep)
- 12" deep Utility Cabinets (Use SKU for 24" deep)
- Corner Cabinets with angled frames (SCER, SCR, BRER, BLS, BECF)
- Only available in standard construction, and will not be available with Soft Close Hinges.

Cabinet Specification Reference

- ▶ Number above wall cabinet represents height of cabinet.
 - ▶ 1½" Top and Bottom Rails on most cabinets.
 - ▶ 1½" Vertical Stiles on most cabinets, except OCSD/OD/TMW Cabinets.
 - ▶ Drawer box opening heights are 4½" for small and 9½", 9¾", or 10⅛" for large (deep) drawers.

7/16" Overlay Door Styles:

- $1\frac{1}{16}$ " Reveal around doors ($1\frac{1}{16}$ " of Face Frame shows).
 - Door size for Single Door Cabinets: Frame opening + $\frac{7}{8}$ "
 - Door size for Butt Door Cabinets:
(Frame opening + $\frac{3}{4}$ ")/2
 - $4\frac{1}{2}$ " High Drawer opening = $5\frac{1}{8}$ " Drawer Front.

Full Overlay Door Styles:

- ▶ $\frac{1}{4}$ " Reveal around doors ($\frac{1}{4}$ " of Face Frame shows).
 - ▶ Door size for Single Door Cabinets:
Frame opening + $2\frac{1}{2}$ "
 - ▶ Door size for Butt Door Cabinets:
(Frame opening + $2\frac{3}{8}$ ")/2
 - ▶ $4\frac{1}{2}$ " High Drawer opening = $5\frac{1}{4}$ " Drawer Front.

32½" High Vanity Cabinets

35" High Vanity Cabinets

32½" High Base Cabinets (Universal Design Application)

- 32½" High Cabinets are designed to comply with ADA (Americans with Disabilities Act) requirements of a 34" high overall counter height, including a 1½" counter top.
- Refer to ADA guidelines for more details on designing in small spaces where extra width for turning radius may be required.

- Available in the following styles:

- Avalon Maple
- Benton Birch
- Brellin PureStyle™
- Landen Maple
- Oakland Oak
- Radford Maple
- Saybrook Birch
- Sinclair Birch
- Westbury Oak
- Winstead Maple

- For Vanity Sink Base Cabinets, see page 232. For a Vanity Wall Sink Cabinet, see page 256.

NOTES ✓

- To create the Americana design, start with F396 and add MICROWN8/PSMICROWN8 and MROPE8 insert.
- To create the Art Linea design, start with MCTB8, add MBAT8 and another MCTB8 and support with cleat.

Americana

Art Linea

NOTES ✓

- To create the Aztec design, start with F396 and add MFOLCR8/PSMFOLCR8 and MDENTIL8 insert.
- To create the Baroque design, start with F396 and add MFOLCR8/PSMFOLCR8 and MROPE8 insert.

Aztec

Baroque

NOTES ✓

- To create the Georgian design, start with MBS8 and add MCROWN8/PSMCROWN8 and support with cleat.
- To create the Classical design, start with MTST8/PSMTST8 and add F396 cut to 1½" and add another MTST8/PSMTST8 and support with cleat.

Georgian

Classical

Mission**Monticello****NOTES ✓**

- To create the Mission design, start with F396 and add two MBAT8 and MSHKRCROWN8 and support with cleat.
- To create the Monticello design, start with MCTB8 and add F396 and MSHKRCROWN8 and support with cleat.
- Available in Maple finishes only.

Monarch**Regency****NOTES ✓**

- To create the Monarch design, start with MTST8/PSMTST8 and add F396 and MICROWN8/PSMICROWN8 and support with cleat.
- To create the Regency design, start with MTST8/PSMTST8 and add F396 and MFOLCR8/PSMFOLCR8 and MDENTIL8 insert and support with cleat.

Renaissance**Romanesque****NOTES ✓**

- To create the Renaissance design, start with F396 and add MICROWN8/PSMICROWN8 and MTBEAD8/PSMTBEAD8 insert.
- To create the Romanesque design, start with MCTT8 and add another MCTT8 and MDENTIL8 insert and support with cleat.

Did you remember...

Styles and Pricing

- ▶ Select Door Style and Pricing Level from your 20/20 design program. (If copying and pasting from one order to another, remember to reset styles and pricing.)

End Finishing Options

Consider exposed end options:

- ▶ Use APC for exposed cabinets. The laminate end will age uniformly with the rest of the kitchen.
- ▶ Apply $\frac{3}{16}$ " veneer skin to hide $\frac{3}{16}$ " reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- ▶ Apply decorative door kit (DBEP, DWEP, DVEP). This kit includes $\frac{3}{16}$ " veneer skin, decorative doors, and screws for field installation.
- ▶ Underside of Wall Cabinets are natural maple laminate, with a few exceptions such as WMD, WOL and WPG (exclusions to apply and noted throughout the book). Use light rail and skin to hide, especially when designing with Peninsula Wall Cabinets.

Wood and Finish Characteristics

Review specific details with the customer:

- ▶ Mineral Streaks, Birdseye Dots, Grain Variations (especially Rustic Birch).
- ▶ Color Variations/Darkening (especially Cherry).
- ▶ Finish Variations (Glazes are "consistently inconsistent"), hairline cracks may develop at frame joints on painted frames.

Clearances

- ▶ Add fillers between end cabinets and walls on full overlay door styles.
- ▶ Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- ▶ Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.
- ▶ For minimum pull requirements on blind corner cabinets, see charts on pages 132, 182, and 254.
- ▶ Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, swing-out units, etc.).
- ▶ Doors on these cabinets must open fully for accessories to be functional.
- ▶ Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Advise customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- ▶ Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- ▶ Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

Fillers

- ▶ Place fillers toward end of run where least conspicuous if needed.
- ▶ Attach overlay fillers on top of base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.

Matching Interior Cabinets/Glass Options

- ▶ Use light rail and skin to hide color variation between bottom of WOL Cabinets next to any other cabinets.
- ▶ Verify mullion door grid matches customer expectations. (Advise customer of shaker grid pattern.)

Mouldings

- ▶ All toekicks must be skinned with TOEKICK, TOEKICK8, or TOEKICKPLY8.
- ▶ Verify the correct amount of moulding has been ordered.
- ▶ Order toekick caps.
- ▶ Order extra scribe.

Islands and Peninsulas

- ▶ Consider standard height bars are 35" tall and require 19" knee space. Raised bars are 42" tall.
- ▶ Consider Base Peninsula Cabinets (PB) are 23 $\frac{3}{4}$ " deep and require 12" of knee space.
- ▶ Use outside corner moulding if a skin is exposed on the back of the island.

Appliances

- ▶ Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- ▶ Verify refrigerator door has enough clearance to open beyond 90 degrees so refrigerator drawers can be utilized. Refer to appliance manufacturer's specifications.
- ▶ Thermofoil will not withstand sustained temperatures in excess of 170°F. A 3" filler or heat shield is required between any thermofoil surface and any heat source to be in compliance with cabinet warranty.

Special Considerations

- ▶ Consider V-groove skins and/or decorative doors on exposed cabinet sides in glazed kitchen.

Miscellaneous

- ▶ Order touch-up kit for future repairs.

Tips to the Installer

#10 x 2 $\frac{1}{2}$ " installation screws are furnished and packaged inside all cabinets for attachment to wall. Proper wall stud or ceiling joist installation is essential for Wall and Peninsula Cabinets to support weight. Whenever possible, cabinets should be attached to each other for additional strength. Excessive weight should not be put on cabinets hung by themselves. Shimming may be required to ensure proper alignment. Wallboard alone is not strong enough to support the cabinets.

Aristokraft's Warranty does not cover damage caused by improper installation. Please be sure to install cabinets properly and review all installation instructions. If you have questions, please contact your representative or customer service.

Wood Dust Warning

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, Aristokraft recommends that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

Kitchen Planning Guidelines

Door/Entry

- Door opening should be at least 32" wide.

Door Interference

- Entry door should not interfere with safe appliance operation or appliance doors.

Distance Between Work Centers

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

Separating Work Centers

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

Work Triangle Traffic

- Major traffic patterns should not cross through the basic work triangle.

Work Aisle

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

Walkway

- The walkway width should be at least 36".

Traffic Clearance At Seating

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

Seating Clearance

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

Clean-Up/Prep Sink Placement

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

Clean-Up/Prep Sink Landing Area

- Include at least a 24" landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

Preparation/Work Area

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

Dishwasher Placement

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

Waste Receptacles

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

Auxiliary Sink

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height of the sink.

Refrigerator Landing Area

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under counter-style refrigerator.

Cooking Surface Landing Area

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

Cooking Surface Clearance

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave hood is used, then the manufacturer's specifications should be followed.

Cooking Surface Ventilation

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up airway may need to be provided. Refer to local codes.

Cooking Surface Safety

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

Microwave Oven Placement

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

Kitchen Planning Guidelines (continued)

Microwave Landing Area

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

Oven Landing Area

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

Combining Landing Areas

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

Countertop Space

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

Countertop Edges

- Clipped or round corners rather than sharp edges are recommended on all counters.

Storage

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

Storage At Clean-Up/Prep Sink

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

Corner Cabinet Storage

- At least one corner cabinet should include a functional storage device.

Electrical Receptacles

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

Lighting

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

Bathroom Planning Guidelines

Door/Entry

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

Door Interference

- Entry or fixture doors should not interfere with each other and/or the safe use of fixtures/cabinets.

Ceiling Height

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

Clear Space

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

Single Lavatory Placement

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

Double Lavatory Placement

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

Lavatory/Vanity Height

- The height for a lavatory varies between 32" – 43" to fit the user.

Countertop Edges

- Clipped or round corners rather than sharp edges are recommended on all counters.

Shower Size

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

NOTES

- Center shelf support clip included on Wall Double Door cabinets 27" wide and greater.
- Three adjustable shelves.
- All W0942 cabinets have square doors.

DESIGN SOLUTIONS

- Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation.

NOTES

- Two adjustable $\frac{3}{4}$ " thick matching Aristex™ shelves align with door mullions on Standard mullions, but do not align on Shaker mullions.
- Cabinets include installed, clear tempered glass, and matching Aristex™ interior.
- See page 27 for Standard and Shaker Mullion Door style availability and grid configurations.
- Mullion Door cabinets are not available in Teagan.

DESIGN SOLUTIONS

- Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation.
- For complementary Wall Mullion Door cabinets in Teagan, order as Winstead Maple, as Teagan features a slab door design.

NOTES ✓

- Cabinets include matching Aristex™ interior and clips to install glass (glass not included).
- Wall Prepped for Glass cabinets are not available in Augusta or Teagan.
- Doors Only for WPG cabinets can be ordered to meet the need for Doors Cut-for-glass.

DESIGN SOLUTIONS

- Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation.
- For complementary Wall Prepped for Glass cabinets in Teagan, order as Winstead Maple, as Teagan features a slab door design.

NOTES ✓

- Shelves not available.
- Cabinets must be supported on three surfaces when mounted.
- Center door on RW4812 will be hinged on the left.
- When designing for built-in refrigerators, be sure to use necessary Fillers to provide proper clearance.

DESIGN SOLUTIONS

- Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation.

Wine Rack Cabinets, 12" Deep

NOTES ✓

- Matching Aristex™ interior.
- Can be installed horizontally or vertically.
- When installed vertically, wine rack can't be used as the end cabinet because the ends are recessed. Frame rail configuration will be unique from adjacent cabinets when installed vertically.
- WR3018 holds 11 bottles.
- WR3614 holds 13 bottles.
- Wine bottles may extend beyond face frame. Not recommended for high traffic areas.
- Wine Rack Cabinets do not feature finished face frames because they are not intended to be installed as stand-alone units.

DESIGN SOLUTIONS

- Apply an End Panel Skin to create a flush end on the side of a Wall cabinet if installed at the end of a run for ease of Moulding installation.

NOTES ✓

- Drawer guides are side-mount Full extension.
- Dovetail drawer not available.
- Outside edge profile will match door.
- In countertop applications, backsplash must be cut out for flush installation against a wall.

WD1817.5	433	390	390	408	452	476	522
-----------------	-----	-----	-----	-----	-----	-----	-----

NOTES

- Cabinets include magnetic white board on back of door, key hooks, pencil holder, and fixed plexiglass-fronted $\frac{3}{4}$ " thick shelves.
- For proper installation, adjacent cabinet must have $\frac{1}{4}$ " panel applied, not included with WMC.
- Two cut to size veneered skins are included to achieve a flush fit when desired. Opaques will receive MDF skins.

NOTES ✓

- Only available in Cherry, Maple and Oak species.
- Paint finishes available; PureStyle™ not available.
- Includes wood mounting plate with metal brackets. Once installed, mounting system is fully concealed.
- ¾" thick solid-wood front and sides. ⅜" veneered furniture board top and bottom. Front and ends are mitered together.
- No modifications are available for this product.

NOTES

- Butt door styles will utilize butt door sizes, frame will always have a 3" center mullion.
- Install Wood Hoods between adjoining 12" deep cabinets (15" deep cabinets are not recommended).
- Doors matching the style ordered will be installed on hood.
- Durham and Overton Toasted Antique doors will have a glazed appearance, but rest of wood hood unit will be painted Antique.
- Wood Hoods ordered in Rustic Birch will not feature Rustic characteristics.
- Exhaust system not included. Compatible with TWHBLOWER390, TWHBLOWER500, and TWHCONKIT.
- Check your local building code for installation heights above the range.
- Silver metallic liner included. Liner opening size: 10 $\frac{1}{4}$ " deep by 19 $\frac{1}{2}$ " wide. Assembly required.
- Installation instructions and hardware included.
- Glazed edges indicated by arrows on drawings.

- Trimmable.
- Purchased with corresponding WHS.
- When Antique is used for Durham and Overton, wood hood unit will not feature a glazed appearance. Toasted Antique is not available.
- For Birch and Rustic Birch styles, order Maple. For Thermofoil and PureStyle™, order Maple paint.

NOTES ✓

- Freestanding unit (must be properly secured to wall and cannot be attached to adjacent cabinets).
- Chimney available (WHC..).
- Check your local building code for installation heights above the range.
- Powder coated silver metallic metal liner included.
- Installation instructions and hardware included.
- Exhaust system not included. Compatible with TWHBLOWER390, TWHBLOWER500, and TWHCONVKIT.
- When Antique is used for Durham and Overton, wood hood unit will not feature a glazed appearance. Toasted Antique is not available.
- For Birch and Rustic Birch styles, order Maple. For Thermofoil and PureStyle™, order Maple paint.
- Glazed edges indicated by arrows on drawings.

NOTES ✓

- Only available in Maple.
- When Antique is used for Durham and Overton, wood hood unit will not feature a glazed appearance. Toasted Antique not available.
- Powder coated silver metallic metal liner included.
- Check your local building code for installation heights above the range.
- Exhaust system not included. Compatible with TWHBLOWER390, TWHBLOWER500, and TWHCONVKIT.
- Freestanding unit (must be properly secured to wall and cannot be attached to adjacent cabinets.)

Wood Hood Blower

TWHBLOWER390	2.1	991
TWHBLOWER500	2.1	2093

NOTES ✓

- Compatible with WHCA, and TWH Wood Hoods.
- 6" diameter vent.
- Silver metallic finish.
- One year warranty.
- Two 20-watt candelabra lights, (not included), and three fan setting levels.
- CFM Rating -
TWHBLOWER390: 390 CFM (cubic feet per minute); 6 sones or 53.83 decibels
TWHBLOWER500: 500 CFM (cubic feet per minute); 8.2 sones or 57.98 decibels
- Order under style #010. Manufacturer recommends 24"-30" clearance between cooking surface and blower unit.
- Includes a dishwasher-safe aluminum filter for use with external ducting. Does not include charcoal filter for internal ducting with conversion kit (see FILTER390 or FILTER500).

Wood Hood Conversion Kit

TWHCONVKIT	2.0	436
-------------------	------------	------------

NOTES ✓

- Kit allows TWHBLOWER390 and TWHBLOWER500 to be vented internally.
- Order under style #010.
- Kit includes: One 21" x 7" round pipe, 1 adjustable collar, 1 white metal soffit grille, 1 adjustable boot, a 7" to 6" reducer, and FILTER390 (for TWHBLOWER390) or FILTER500 (for TWHBLOWER500)
- FILTER390 and FILTER500 also available to order separately for replacements.

Filters

FILTER390	2.0	58
FILTER500	2.0	196

NOTES ✓

- Replacement charcoal filter for use when wood hood blower is ducted internally with the wood hood conversion kit (TWHCONVKIT).
- FILTER390 for use with TWHBLOWER390.
- FILTER500 for use with TWHBLOWER500.

NOTES

- Shelves not available.
- Cabinets include matching Aristex™ interior and clips to install glass (glass not included).
- Diagonal Wall Cabinets are reversible except for Arch styles.
- When installing, DCPG cabinets must be attached to at least one run of cabinets and both back walls.
- All full overlay doors are smaller to allow for proper door opening.
- Wall Prepped for Glass cabinets are not available in Augusta or Teagan.

Diagonal Corner Wall Cabinets w/Doors Prepped for Glass, 14" High, 12" & 15" Deep

Wall Corner Cabinet Installation Charts

CUBES	1	2	3	4	5
Oakland Oak					
Sindair Birch					
Augusta Thermofoil Avalon Maple Ellis PureStyle™ Sinclair (Paint) Westbury Oak					
Benton Birch Brellin PureStyle™					
Landen Maple Saybrook Birch					

NOTES

- Two adjustable shelves.
- 3" Filler is included. Filler Overlays shipped unattached with Brellin, Briarcliff II, Durham, Eastland, Overton, and Wentworth styles.
- Hinging determines location of the blind. Door attaches to blind panel.
- Cabinets are reversible, except for Arch styles.
- Cover panel shipped with cabinet for field installation to cover 6" blind opening.
- Reference Installation Charts for proper sizing identification, see page 132.

DESIGN SOLUTIONS

- When a cabinet is "pulled," it will use proportionally more wall space. For example, a 30" wide Wall cabinet pulled 2" will use 32" of space.
- Blind side of Wall Corner cabinets cannot be installed next to a Range Hood or Microwave Shelf due to door interference.

NOTES ✓

- One adjustable $\frac{3}{4}$ " thick matching Aristex™ shelf aligns with door mullions on Standard mullions, but does not align on Shaker mullions.
- Cabinets include installed clear tempered glass and matching Aristex™ interior.
- All doors are mullion.
- Backs of face frames are unfinished. See page 27 for Standard and Shaker mullion door style availability and grid configurations.
- Peninsula Mullion Door cabinets are not available in Teagan.

Peninsula Wall Cabinets with 4 Mullion Doors, 24" High, 12" Deep

NOTES

- Features a wood Pull-out unit with adjustable shelves, chrome rail sides, and Full extension guides. Filler included, must be attached in the field.
- Recommend installation between two cabinets. Can be installed on the end of a run by using a $\frac{3}{4}$ " Refrigerator End Panel.
- It is recommended that the OL631 Overlay be applied to the front of the BBCPO6 to give it a finished look.
- Smart Stop™ drawer guides are not available in Select and APC Construction.

**Base Box Column Pull-out Cabinet, 30" High, 6" Wide, 23" Deep**

BBCPO6*	3.9	515	515	•	515	576	576	576	656	755
----------------	------------	-----	-----	---	-----	-----	-----	-----	-----	-----

* In order to allow sufficient clearance, cabinet requires $6\frac{1}{8}$ " space between adjacent cabinet face frames. Spacers included for proper installation.

Total space required
between face frames

Base Corner Cabinet Installation Charts

NOTES

- Adjustable $\frac{3}{4}$ " thick half depth shelf included.
- All Base Corner cabinets are reversible from left blind to right blind.
- 3" Filler is included with all Base Corner cabinets and shipped under Toekick or in cabinet. Brellin, Briarcliff II, Durham, Eastland, Overton, and Wentworth styles come with F331 and OL31.
- To ensure proper door/drawer clearance, we recommend you do not install appliances next to the blind.
- One door and one drawer.
- Cabinets are designed to use same amount of wall space designated in the sku nomenclature.
- Cover panel shipped with cabinet for field installation to cover blind opening.
- Reference Installation Charts for proper size and identification. See page 182.

- Additional material may be needed to cover unfinished Loose Toekick Sub Assembly.
- Refer to Loose Toekick Sub Assembly Installation instructions for cabinet installation.
- Back of cabinet scored for easy back removal if needed when oven used is deeper than cabinet can accommodate.

DESIGN SOLUTIONS

- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance.
- Oven cabinets are trimmable to accommodate a variety of appliance sizes.

BKB4230

NOTES ✓

- Includes two full height drawers with Full extension guides for all construction options.
- Includes hanging file system for folders, sent uninstalled.
- Includes wide bottom rail, no recessed Toekick.
- It is recommended that this unit be fastened to the wall when installing.
- Interior dimension for Standard Construction file drawer is $12\frac{3}{8}$ " W x 19 " D x $9\frac{5}{8}$ " H.
- Interior dimension for Select & All-plywood Construction file drawer is $12\frac{5}{8}$ " W x $16\frac{5}{8}$ " D x $9\frac{1}{4}$ " H.
- Standard Construction accommodates side-to-side filing of letter documents and side-to-side filing of legal documents. Drawer width will not permit front-to-back filing of legal documents.
- Select and All-plywood Construction accommodates side-to-side filing of legal and letter documents.
- Drawer fronts will utilize raised panels on applicable styles.
- Smart Stop™ drawer guides are not available in select and APC Construction.

NOTES

- FP = False Panel.
- Four doors (two butt each end), three center drawers, two false drawer fronts, 24" wide (each side) and 19" deep space for sink opening (each side).
- It may be necessary to modify the corner braces/stretcher rails with some sink applications.
- Raised panel styles - drawer fronts will convert to raised panel;
Full overlay - 10 $\frac{1}{4}$ " or higher
Partial overlay - 9 $\frac{5}{8}$ " or higher
- Vanity interiors are not drilled for shelf clip holes, nor do they include a shelf.

NOTES ✓

- Includes one $\frac{3}{4}$ " thick full depth adjustable shelf.
- All Base Corner Cabinets are reversible from left blind to right blind.
- 3" filler is included with all Base Corner Cabinets and shipped unattached. Brellin comes with Filler and Overlay.
- To ensure proper door/drawer clearance we recommend you do not install appliances next to the blind.
- Adjoining run of cabinets will cover blind opening.
- One door and one drawer installed on each Base Corner Cabinet.
- Base Corner Cabinets are designed to use same amount of wall space designated in the SKU nomenclature, and may be pulled up to maximum amount on chart to accommodate odd dimensions in a kitchen.
- For minimum and maximum pull dimensions, refer to allowable minimum and maximum pull dimensions provided.

NOTES

- FBC3X3 Overlays available for Briarcliff II, Durham, Eastland, Overton, and Wentworth.
- All Fillers finished on front and two long edges, except for F531A45 and BLVDFF331 which are finished on both sides and both long edges.
- All Fillers are $\frac{3}{4}$ " thick.
- BLVDFF331 - 45° reversible angled Filler (fluted one side). Comes as a pair. Reversible, finished on back.
- F531A45 - 45° reversible decorative angled Filler (fluted one side). Comes as a pair. Trimmable 2" top and bottom. Reversible, finished on back.
- TKF3 - Toekick Filler. Order under style #010. Shipped unassembled.
- F14X96 is $\frac{1}{4}$ " thick. Designed to fill space between adjacent cabinets. When ordered with Rustic Birch door styles, will not feature Rustic characteristics. Finished $\frac{1}{4}$ " on front and $\frac{3}{4}$ " all edges (backs are not finished).

NOTES ✓

- Solid-wood $\frac{3}{4}$ " front filler.
- Plywood construction with flush ends. Ends are $\frac{3}{8}$ ".
- Front and both sides are finished; interior supports and back are unfinished.
- Finished veneer on end panel exterior.
- Trimmable to required depth or height.
- Reversible, may be used on either left or right end.
- Not available in Birch or Rustic Birch.

Hardware Chart

NOTES ✓

- Screws included with hardware.
- Order under style #010.
- Hardware is recommended for use on all full overlay and miter door styles (except Avalon and Radford). All other door styles have a reverse bevel and hardware is not required.
- **For 5-piece drawer front panel dimensions, please see page 297.**

*Hardware does not fit certain door styles with 5-piece drawers because of small width of recessed center drawer panel.

Warped Door Policy

Aristokraft cabinetry is constructed to strict specifications, including the moisture content present in wood. When the moisture content is maintained at a constant level, Aristokraft is able to minimize the amount of expansion and contraction associated with natural wood. When a great amount of expansion and contraction occur, the result can be a warped door. By strictly controlling the amount of humidity present during manufacturing, Aristokraft is helping to ensure you receive a quality product.

Because wood is a natural product, each piece of wood exhibits its own unique color and grain variations. These differences give wood its genuine beauty. The wood's natural properties also determine how each individual piece will react to changing weather conditions. Therefore, eliminating warped doors is virtually impossible.

If you feel that you have a warped door, Aristokraft requires that you perform initial testing to determine the extent of the problem.

1. Remove the door from the cabinet and remove all decorative surface knobs or pulls and hinges.
2. Place the door on a completely flat surface, as determined by using a level, and alternately press on the opposite corners to observe if the door "rocks" or pulls away from the flat surface.
3. If you observe a gap between the door and flat surface, measure the distance to determine the amount of warpage.
 - A door must be warped at least $\frac{1}{4}$ " before it can be considered for replacement. When ordering a replacement by using Aristokraft Part Replacement Order Form, be sure to fill in the reason for proper replacement code as "06".
 - If the door is warped less than $\frac{1}{4}$ ", we recommend you allow a complete heating and cooling cycle (summer to winter) to allow the door to reach moisture equilibrium. Adding magnetic catches or roller catches will often correct minor problems.
4. If the door does not pull away from the flat surface, it is not warped. Most likely, there is a problem with the cabinet installation. When cabinets are not properly installed in a level or plumb position, they will become racked and will cause the door to appear warped. To check for a racked cabinet, place a level on one end rail. The bubble in the level will appear centered if the cabinet was properly installed in a level position. Now, place the level on the other end rail. Again, if the bubble appears centered the cabinet is properly installed in a level position. Any variations in the location of the bubble will indicate the cabinet was not properly installed. (A plumb bob will reveal the same information.)

Another proper installation check is to place the level in the top, and then bottom of the installed cabinet's face frame. Identify the bubble's position in both, top and bottom, locations of the face frame. The bubble's position will indicate if the cabinet was not properly installed.

Cabinet Care Suggestions

Cleaning Tip: Never use a dishcloth to clean or dry cabinet exteriors or interiors. Remnants of detergent or grease may be contained within the dishcloth.

Interiors: Aristokraft cabinet interiors are surfaced with Aristex™, a quality laminate material that resists scuffs, marks, and most common household spills.

1. To clean the interior surface, simply wipe with a damp cloth or sponge, then dry.
2. To remove food residue or grease, use the suds from any common dishwashing liquid and a damp cloth to wipe clean. Dry thoroughly.

CAUTION: If a spill occurs, it is important to clean up the spill and dry the surface immediately. A spill left unattended will soak through the Aristex™ and cause damage.

Exteriors — Wood Finish: Aristokraft wood exteriors are manufactured with a quality finish that protects the wood and brings out its full beauty. To maintain your cabinets' appearance, Aristokraft recommends cleaning them at least once a month.

1. Simply wipe the surface of your cabinets with a clean damp cloth, then dry.
2. To remove general soil or grease, use the suds from any common dishwashing liquid and a damp cloth to wipe clean. Dry thoroughly.
3. Excess moisture can damage any cabinet finish; areas near the sink, range, dishwasher, oven and baseboards are the most susceptible. Keep these surfaces dry.
4. Because Aristokraft uses a quality varnish on the finish, waxing your cabinets is not necessary. If waxing is preferred, use any furniture polish or lemon oil recommended for fine furniture. Be sure to completely wipe off the excess wax to avoid build-up.

CAUTION: Avoid using cleaners that contain bleach, ammonia or state on the label they have any type of abrasives. These cleaners can cause damage to your cabinet finish.

Exteriors — PureStyle™/Thermofoil: Some Aristokraft styles use doors and drawer fronts with a laminate or thermofoil finish. To clean this type of finish, Aristokraft recommends the same procedure described for wood exteriors.

Discontinued Product Policy

- A minimum of 60 days notice will be given to customers announcing the discontinuation of a product.
- Product will no longer be available to order after the discontinuation date. Only warranty orders will be considered. With warranty orders, Aristokraft will have the option to repair or replace a customer's defective product with the same discontinued product they originally purchased or with a current product that is similar in appearance.

Freight Policy

- If an entire order is no charge, Aristokraft will pay for standard ground freight.
- If an order contains a chargeable item, the cost of freight will be charged to the customer's invoice.
- If a customer requests an upgrade to a parcel shipment method, the customer will be charged the entire freight charge.

Returned Goods Policy

- All cabinets are manufactured according to the individual order and cannot be changed, cancelled, or returned once order has been scheduled.

Transportation Claims

- Please inspect merchandise at time of signing freight bill, and have the transportation company note any damage incurred in transit.

Disclosure

- Prices and specifications are subject to change without notice.

Aristokraft Warranty

Aristokraft has a Five Year Limited Warranty. For terms & conditions, please visit: <https://www.aristokraft.com/warranty>
