Cabinet Care

Quality wood cabinet finishes that have been made to last, can, like good clothes, very quickly get a “used” appearance. Good things need looking after if they are to keep their quality. Due to its many properties, wood has always been a popular material for fine cabinetry the world over. Each tree is an individual piece of nature, which, after being felled, keeps its own character in its strength, structure and sensitivity to light and moisture. Wood can also change its character with time.

Moisture is the worst enemy of all wooden furniture, so all spilled liquids should be wiped away at once. Cabinets should be protected against heat, and also against wet or colored objects.

Cabinet surfaces should be cleaned with a very mild soapy solution. The cloth should be soft and dampened with the soap solution. The surface should then be wiped down with a dry cloth to remove excess moisture. Other cleaning compounds exist but may contain alkaline reagents which will adversely affect the surface. Household polishes can be used on an infrequent basis. Products containing silicone are moisture and dirt resistant but may hinder future lacquering.

Wood and Paint
Characteristics & Variations

Wood - Naturally occurring variations in wood such as color, grain, mineral streaks and knots are not considered defects.

Color variations are a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. Such variations and changes are not considered defects. For these reasons, new and/or replacement cabinets may not match display samples and/or existing cabinets.

Warping is the bending or twisting of a part. To measure a door or shelf, lay the product on a flat surface and measure the gap from the surface to the part. The standard allowable tolerance for wood is 1/16" per lineal foot. Materials that fall within specification are considered acceptable, as a part of the natural characteristics of wood.

Paint Finishes - Paint finishes are uniquely different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes.

With the use of select hardwoods and veneers, some of the grain pattern and wood characteristics (checks & pin knots) as well as seams & joints will remain visible through the paint finish. These are normal and are not considered quality defects.

Seam lines and finish breaks are normal characteristics of paint finishes and should not be considered a reason for product replacement. Over time, there may be a slight color shift, due to exposure to natural and artificial light.

PREFIX	DESCRIPTION
ROS	ROLL OUT SHELF FOR BASE CABINET **75LBS WEIGHT CAPACITY* FACTORY INSTALLATION OPTION • 1 level: Tray(s) installed at the bottom of the cabinet. • 2 levels: 1st level of tray(s) installed at the bottom of the cabinet. 2nd level of tray(s) spaced evenly above.
ROSU	ROLL OUT SHELF FOR UTILITY CABINET **75LBS WEIGHT CAPACITY* FACTORY INSTALLATION OPTION (for each level of shelving, 1 tray is installed per door opening.) • 2 levels: 1st level of tray(s) installed at the bottom of the cabinet. 2nd level of tray(s) spaced evenly above (21" space). • 4 levels: 1st level of tray(s) installed at the bottom of the cabinet. 2nd - 4th level of tray(s) spaced evenly above (10" space).

Harmony

Flat Panel

Construction:

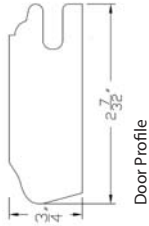

3/4" x 2 1/4" solid wood rails with mortise and tenon corner joints.

Available in standard overlay only

Center panel:

1/4" veneer

Rubber balls stabilize panel and allow for wood expansion and contraction

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front

Mission

Slab

Construction:

5/8" particle board with maple veneer

Painted finishes: composite board

Available in standard overlay only

Edges:

Banded with a maple veneer

Optional 5-piece Drawer Front not available

Durham

Slab

Construction:

5/8" particle board with maple veneer

Painted finishes: composite board

Available in full overlay only

Edges:

Banded with a maple veneer

Optional 5-piece Drawer Front not available

Georgetown

Shaker

Construction:

3/4" x 2 1/4" solid wood rails with mortise and tenon corner joints

Painted finishes: composite board

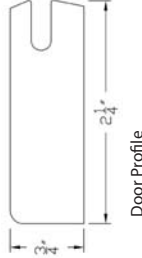

Available in standard overlay only

Center panel:

1/4" veneer

Rubber balls stabilize panel and allow for wood expansion and contraction

Painted finishes: composite board

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front

Youngstown

Flat Panel

Construction:

¾" x 2¼" solid wood rails with mortise and tenon corner joints

Painted finishes: composite board

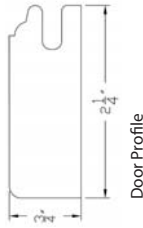

Available in standard overlay only

Center panel:

¼" veneer

Rubber balls stabilize panel and allow for wood expansion and contraction

Painted finishes: composite board

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front

Vanderburgh

Mitered Flat Panel

Construction:

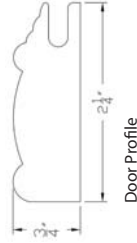

¾" x 2¼" solid wood rails with mortise and tenon corner joints

Available in standard overlay only

Center panel:

¼" veneer

Rubber balls stabilize panel and allow for wood expansion and contraction

Door Profile

Standard Drawer Front

Standard Drawer Profile

Optional 5-piece Drawer Front

Kingston

Shaker

Construction:

¾" x 2¼" solid wood rails with mortise and tenon corner joints

Painted finishes: composite board

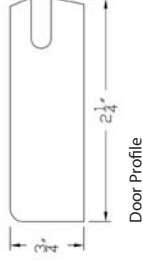

Available in full overlay only

Center panel:

¼" veneer

Rubber balls stabilize panel and allow for wood expansion and contraction

Painted finishes: composite board

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front

Urbana

Narrow Shaker

Construction:

¾" x 2" solid wood rails with mortise and tenon corner joints

Painted finishes: composite board

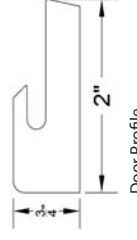

Available in full overlay only

Center panel:

¼" veneer

Center panels are held in place using glue in both the HDF and Maple

Painted finishes: composite board

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front

Classic

Raised Panel

Construction:

$\frac{3}{4}$ " x 2 $\frac{1}{4}$ " solid wood rails with mortise and tenon corner joints

Available in standard overlay only

Center panel:

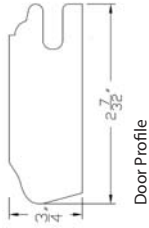

$\frac{5}{8}$ " solid oak, solid cherry or maple veneer on fiberboard

Rubber balls stabilize panel and allow for wood expansion and contraction

5-piece Drawer Front:

Raised Panel: Greater than 8 $\frac{3}{8}$ " height

Flat Panel: Less than 8 $\frac{3}{8}$ " height

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front (2 $\frac{1}{4}$ " horizontal rail, 3" vertical rail)

Construction:

$\frac{3}{4}$ " x 3" solid wood rails with mortise and tenon corner joints.

Painted finishes: composite board

Available in full overlay only

Center panel:

$\frac{1}{4}$ " veneer

Rubber balls stabilize panel and allow for wood expansion and contraction.

Painted finishes: composite board

Rentown

Wide Rail Flat Panel

Construction:

$\frac{3}{4}$ " x 3" solid wood rails with mortise and tenon corner joints

Painted finishes: composite board

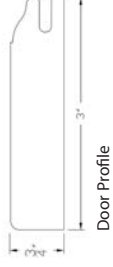

Available in full overlay only

Center panel:

$\frac{1}{4}$ " veneer

Rubber balls stabilize panel and allow for wood expansion & contraction

Painted finishes: composite board

Door Profile

Standard Drawer Front

*Edge detail on drawer front matches profile.

Optional 5-piece Drawer Front (1 $\frac{3}{4}$ " horizontal rail, 3" vertical rail)

Williamsburg

Mitered Raised Panel

Construction:

$\frac{3}{4}$ " x 2 $\frac{1}{4}$ " solid wood rails with mortise and tenon corner joints

Available in full overlay only

Center panel:

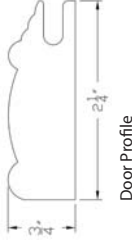

$\frac{5}{8}$ " solid wood

Rubber balls stabilize panel and allow for wood expansion and contraction

5-piece Drawer Front:

Raised Panel: Greater than 8 $\frac{3}{8}$ " height

Flat Panel: Less than 8 $\frac{3}{8}$ " height

Kountry Wood Products Limited Lifetime and Five-Year Warranty

Kountry Wood cabinets have been manufactured under the highest standards of quality and workmanship.

Lifetime Limited Warranty on Drawer Guides and Hinges

Kountry Wood Products warrants to original consumer purchasers for as long as they own their home that the drawer, drawer guides and hinges used in the manufacture of Kountry Wood Products cabinetry products shall be free from defects in material and workmanship under normal use.

Five Year Limited Warranty on Cabinets

In addition, Kountry Wood Products warrants to original consumer purchasers for a period of five-years from the original date of purchase that all other components of Kountry Wood Products cabinetry shall be free from defects in material and workmanship under normal use.

General Warranty Guidelines

Opaque Finishes are uniquely different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, Opaque Finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes. These are normal and are not considered quality defects. Should Kountry Wood Products cabinetry fail during the applicable warranty period due to defects in the material or workmanship under normal use, Kountry Wood Products, at its discretion, will repair or provide the parts necessary to replace the defective products. This warranty does not cover products that are misused, abused, mishandled, improperly installed, improperly stored, changed, modified or subject to extreme temperatures or extreme moisture levels. This warranty is not valid for products used for any purpose other than the purpose for which they were originally intended. This warranty does not cover the cost of installation, removal, subsequent damage or transportation of the defective product, regardless of whether the work was performed by a contractor, service company or the consumer. Variations in color and grain pattern are a natural characteristic of wood. Color changes also may result from exposure to light and other elements that are part of the aging process. These material variations and changes are not covered by this warranty. Kountry Wood Products reserves the right to substitute discontinued product with the most similar product in styling, wood species and color available at the time a claim is submitted.

This warranty is the exclusive warranty of Kountry Wood Products and is in lieu of all other warranties, expressed or implied. In no event shall Kountry Wood Products be liable for consequential, indirect or incidental damages resulting from the installation, use or failure of its product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state. To submit a claim under this warranty, contact your nearest Kountry Wood Products dealer or send a letter explaining the defect along with a dated sales receipt as proof of purchase to:
