HANDICAP / HANDICAP ACCESSIBLE – COMPLIANCE

Kountry Wood Products has made every effort to provide a range of Handicap/Handicap Accessible products to assist its customers with meeting the ADA Standards for Accessible Design.

Customer bears the responsibility of determining compliance with applicable regulations and standards pertaining to Accessible Design and should consider the overall room design, product installation, and other end-use variables.

Kountry Wood Products makes no warranty as to compliance with the ADA Standards for Accessible Design or any other federal, state or local regulation, standard or requirement pertaining to Accessible Design.

WOOD AND PAINT - CHARACTERISTICS & VARIATIONS

Wood - Naturally occurring variations in wood such as color, grain, mineral streaks and knots are not considered defects.

Color variations are a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. Such variations and changes are not considered defects. For these reasons, new and/or replacement cabinets may not match display samples and/or existing cabinets.

Warping is the bending or twisting of a part. To measure a door or shelf, lay the product on a flat surface and measure the gap from the surface to the part. The standard allowable tolerance for wood is $\frac{1}{16}$ " per lineal foot. Materials that fall within specification are considered acceptable, as a part of the natural characteristics of wood.

Paint finishes are uniquely different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes.

With the use of select hardwoods and veneers, some of the grain pattern and wood characteristics (checks & pin knots) as well as seams & joints will remain visible through the paint finish. These are normal and are not considered quality defects.

Seam lines and finish breaks are normal characteristics of paint finishes and should not be considered a reason for product replacement. Over time, there may be a slight color shift, due to exposure to natural and artificial light.

KOUNTRY WOOD DEALER EXCHANGE

KDEX is our online dealer portal. It is designed to provide Kountry Wood Products dealers with the following functionality:

1. **Submit orders electronically** to Kountry Wood Products.
2. **Upload 20-20 kitchen designs** into KDEX to facilitate the submission of those orders online.
3. Download the latest version of our **20-20 Catalog**. (A change log for our 20-20 Catalog is also available for download.)
4. Download the latest versions of our printed **Price Book** and other Kountry Wood Products **Documents and Forms**.
5. View **Announcements** of new releases and updates to the Price Book, 20-20 Catalog, KDEX, and other important changes.

To request a KDEX user account...

1. If you are a dealer with an active Kountry Wood Products account, then you are eligible for a KDEX account!
2. Go to www.kountrywood.com and click on DEALERS at the top of the page.
3. Click on the "Request Account" link below the large KDEX logo.
4. Fill in the online form and click the [Submit] button.
5. Within 1 business day, you should receive an email from Kountry Wood confirming the activation of your KDEX account.
6. Then just go back to www.kountrywood.com and click on DEALERS at the top of the page and login.

Get the KDEX basics from the "KDEX User Instructions" PDF document - available for download from the Resource Center on the KDEX Home page.
